Geographic Names

The Forester,

Washington, D. C.

Dear Sir:

Reference is made to page 331 of the Fifth
Report of the United States Geographic Board:

You will note that the correct spelling of
a range of mountains in Nevada is "Toiyabe". This range
is in the Toiyabe National Forest and it would appear
that the Forest should be spelled the same way. Is it
possible that the Geographic Board has approved the
method of spelling we have used for the past years,
or are we at fault in not adopting the spelling as
approved by them?

Very sincerely yours,

R. H. RUTLEDGE, District Forester,

By C. W. Woods Acting.
